> OLAT-Introduction for students

OLAT registration with authentification through Shibboleth

- OLAT (Online Learning and Training) is an Open Source eLearning platform, which was developed at the University of Zurich.
- Since August 2010, the Virtueller Campus Rheinland-Pfalz (VCRP) is operating the platform.

OLAT Einführung für Studierende
OLAT registration with authentification through Shibboleth

Shibboleth is a **method for the authentification and authorization** of webservices and web applications which was developed by *Internet2*.

The idea behind this proposal is that the user **needs to register only once to get access to several services and contents at the same time**.
